

I am writing to ask you to keep the FM radio station K-LOVE. This radio station helps so many people throughout our country as well as in each one of our communities. K-Love encourages me to help those in my community, whether it be by saying a nice word, helping someone to needs a shoulder to cry on or just there for support.

K-Love is heard from the north to the south and the east to the west, there are so many people out there who need and want to hear about God. There are so many out there (maybe your neighbor or a family member, maybe you) who are going through some very hard times right now and need to turn to something for support. Then they hear about all the wonderful things that God does for people and they want that, they want to be encouraged. You find God on this radio station, you find positive words and songs, you find good morals and values, you find ways to raise your family in a God loving home. Isn't this what we want for everyone? wouldn't you rather hear nice positive encouraging wholesome loving words rather than swearing and yelling in your home?

God is everywhere, there are some that only hear about him on this radio station. For others it may be the first time they ever heard of the love that God has for them and it touches their lives. There was a lady who was going to commit suicide, she talked to one of the pastors on the radio and decided to lean on God instead. Isn't that amazing?! If K-Love didn't reach out to all the communities that they do, that woman wouldn't be here right now. The radio station saves lives and opens hearts. People who are lost need something, they find this station and they find that something..they find Jesus. Isn't that what you want for your family?

thank you

Sincerely,  
Corrine Kusch
